

POLISHING
OVERLAY
GRAY & WHITE
BASE

G02-AA224/G02-AA227

The Polishing Overlay was formulated to be applied over new or old concrete, mortar, stone, prefabricated pieces or any other strong, crackless surface. It may be colored with Construcolor® Liquid-Gel Integral Pigments B01, B02, B03 & B04, as well as with Acrylic Inks and Stains.

It proves excellent adherence, resistance, hardness and long term durability through time which it is why it may be applied over floors under industrial traffic.

GREY & WHITE BASED
POLISHING OVERALY
G02-AA-224/G02-AA227
