

ACRYLIC ELASTOMERIC
SEALER & CURING
MEMBRANE

E o 2

CONSTRUCOLOR.
Technology Solutions for the Construction Industry

The Acrylic Elastomeric Sealer & Curing Membrane E02 is 100% acrylic and has a solid content of 25%, it can either be transparent or colored. It's eco-friendly and was developed for applications on vertical or horizontal surfaces.

It has excellent elasticity and elongation properties, which is why it's highly recommended for surfaces that present structural moves or thermal structural changes.

It's highly resistant to sunlight, hence it does not turn yellow. It also has longevity and keeps a good appearance.
