

INTEGRAL
WATERPROOFING
Wo1-AAo38

CONSTRUCOLOR.
Technology Solutions for the Construction Industry

W01-AA038

Integral
Waterproofing is solvent free, of
easy dispersion in water and
eco-friendly.

It was developed to easily
integrate in concrete mixtures
and mortars. It provides
prefabricated pieces with water
repellence and saltpeter
permanently, no matter the
slump which the mixture was
worked with.

It tends to work as a curing
membrane so it provides a better
setting process.

Integral

Se logra la reducción del agua en
la mezcla, conservando el
revenimiento por lo que se
obtiene como efecto colateral el
incremento de la resistencia del
concreto o mortero.

Con la finalidad de facilitar el
control de calidad de la obra, el
W01-AA038 colorea ligeramente
las mezclas, permitiendo
verificar si le fue adicionado al
camión revolvedor.
